Programming and administration of PBX Panasonic KX-TDA200 When programming and administering the PBX, it is important to remember that each PBX has a unique code structure, which can result in software installation errors. Therefore, it is important to have an understanding of the programming and admin panel of the PBX and not make mistakes. Creating PBX projects is a very time-consuming process that requires serious knowledge of the Asteria programming language and exchange protocols. When developing, it is necessary to take into account all the technical features of each PBX. Therefore, these tasks can be solved with the help of Blackmagick Design specialists who perform the administration of Panasonic KX TDA200 equipment. We support a number of common IP protocol formats (TCP/IP, LACP, SIP and SIPX). At the request of the customer, we can develop and customize specialized equipment. Always needed after installing software
