## Tds Survey Link Software

Specify the format of the extracted subgrid, depending on which version of the Survey.Pro CE software is installed on the TDS Ranger, Survey format Pro 3.5 (\*.ggf). Or Survey Pro 4.0 (\*.sxdm) If the TDS Ranger has Survey Pro software installed, select one of the options: Survey Pro 3.5 or Survey Pro 4.0. These options only allow validation for Survey Pro 3.5 or Survey Pro 4.0 data, respectively. Select the zone type according to the version of Survey Pro software you are using. Select the scan area according to the Survey Pro software version used. Survey Pro software comes with a solid line of Spectra Geospatial data collectors, providing unsurpassed integration, data integrity, efficiency and ease of use. Spectra Geospatial uses powerful data collection, processing and analysis techniques for real-time data in combination with various geospatial services for analysis, maps, maps, exchange and analysis. Survey Pro software allows users to create data sets that can be used for various business tasks, including data collection, image receipt, monitoring, data management and real-time cartography.
