FIFA: A Brief History EA Sports FIFA games have been making their mark on the footballing community since the early 90's. If you have ever played against the game on the Sega Dreamcast, you will know what a footballing juggernaut FIFA is. The FIFA series has been so popular that EA Sports actually owns the trademark on the word 'football' and uses it whenever it makes a new FIFA game. FIFA 17 was EA's most successful year yet, taking five main awards on the day. In the FIFA series, EA Sports takes great pride in bringing the closest to the real world experience to players. The game contains over 300 players in its roster, and can boast a global audience of over 200 million. Keeping up with the times Sega (original licensor of the game) announced in 2010 that the FIFA series would be licensed to China, and later, Europe, meaning players had the chance to play other countries' leagues. After the announcement, fans of the series expected an announcement for the United States. This announcement came on August 2015, when FIFA 16 was officially released. Official release of FIFA 16. Setting the release date, the series' 15th anniversary, the game is being released on August 22, 2016. After release, the fans of the series could**

For FIFA, this means having the game control as natural as possible, and for the player, having the time to control their team. The following features are the keys to having a great game experience and being able to have more fun with your team: Control Control is the most important thing on a game, and FIFA gives you the perfect control.
