Santa Claus has problems - the boxes with the presents which are supposed to be delivered to all the kids on Christmas Eve are missing. Now help Santa Claus catch up with the slow-moving present boxes. Santa Claus faces many opponents on his way to collect the boxes. There are death-defying jumps, slides, seesaws and swings to name but a few. As you collect boxes, you will unlock new characters and new worlds, some of which are full of additional levels. Santa Claus in Trouble includes a lot more than the original two games. You will meet a bunch of different characters and all their different abilities, see a lot of new worlds and meet more than ten old and new obstacles. Because of the many, many new levels you will have to call upon all your resources and skills in order to find the presents. The graphics have been greatly improved including reworked models and textures. The download size (size on your PC) has been reduced compared to the original in order to make your download more efficient. This game is focused on the core gameplay and not on graphic gimmicks. It's quite easy to play but has a lot of fun to discover. A big thanks to all our supporters on Steam! _____ Help Santa Claus collect the colorful packages in this wonderful Jump'n'Run. In doing so you will not only save the day but Christmas as well! But it's not as easy as you might think - there are presents all over the place. Santa Claus doesn't just have to watch out that he doesn't fall into an abyss, he also has to stay out of the way of nasty creatures. An exciting adventure is just waiting for the kids in your life and especially the kid in you! 20 beautiful levels divided into 5 different episodes Reworked textures, character models and environment Modern graphic render engine for higher visual quality especially in terms of lighting and shadows Thrilling physical game mechanics like seesaw, slides, elevators, trampolines, hammers and many other New User Interface with proper font scaling for high resolutions including full controller support 6 different opponents Over 10 amazing christmas sound tracks Online leaderboards including Speed Run mode Classic "Santa Claus in Trouble" mode Santa Claus in Trouble (HD) Free Download based on the games "Santa Claus in Trouble" (released in 2002) and "Santa Claus in Trouble. again" (released in 2004). For copyright issues, please contact us.Q: Query to increment employee id if previous in clause with group by I have a table like below which has employee id as key and some assignment of employees like follows. Emp_Id 1011 1012 1013 1021 1031 1032 Expected output something like this: Emp_Id 1014 1023 1025 1031 1033 1034 From above expected output, above 4 rows have to be inserted after Incrementing Employee ID. For example, In above 3 rows 1014, 1023 and 1025 they all have same employee id. So they can be inserted from after 1025 or 1031. NOTE: In the expected output, the id of 1031 and 1033 could not be depended on the sorting sequence. They can be inserted in any order as per above expected output. The idea is somehow LIKE Clause is not working or sql server treats it as IN and it is not generating correctly. Please guide me. Here is SQL-T-SQL statement: BEGIN DECLARE @ID_CUR INT, @ID_PRE VARCHAR(100), @NEW INT SET @ID_CUR = 1 SET @ID_PRE = (SELECT TOP 1 Emp_Id FROM [dbo].[EmpAssignment]) WHILE(@ID_CUR
